

EV9

Movement that inspires

www.kia.com

High Performance

0 - 100 km/h only in 5,3 second
385 PS & 700 Nm

Battery Range

497 Km | 99,8 kWh
Ultra Fast Charging 350 Kw (± 24 Minutes)

The images shown are for illustration purposes only and may not be an exact.

Vehicle to Load

Providing access to electricity anywhere and anytime through the vehicle. Users can take advantage of the existing electric power in the EV9 to turn on household electronic equipment or to charge other electronic batteries.

Meridian Premium Sound System with 14-Speakers

Provides clear audio quality so that it can add comfort when dealing with traffic jams. Users can listen to their favorite songs from the Meridian Premium Sound System with 14-Speakers.

Dual Panoramic Sun-roof

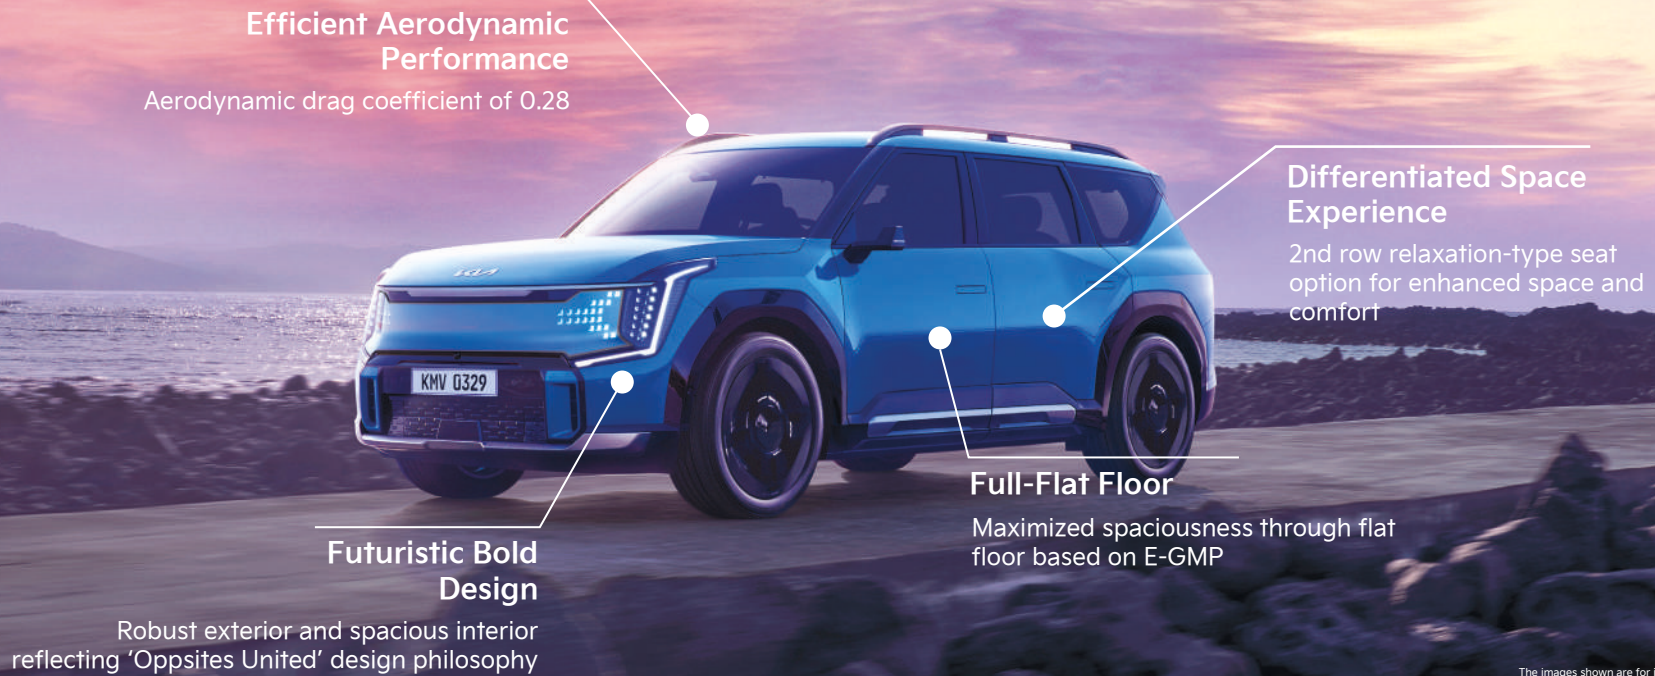

Adding a luxurious and spacious impression to the cabin with the presence of the Dual Panoramic Sunroof, while also allowing users to enjoy natural views and cool air through the sunroof.

Relaxation Seats & Dynamic Body Care

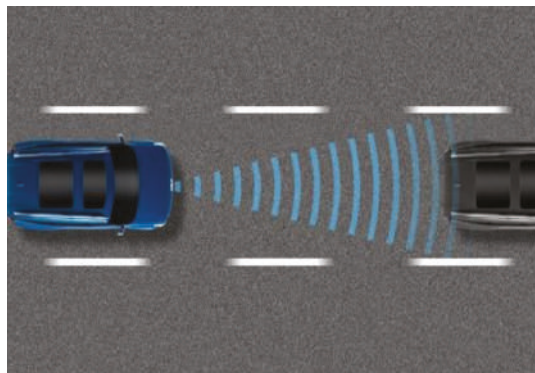

Providing maximum comfort for passengers sitting in the second row through the Relaxation Seats and Dynamic Body Care features. Travelling long distances will feel very comfortable.

Electric Flagship SUV to Advance Kia's Sustainability Vision

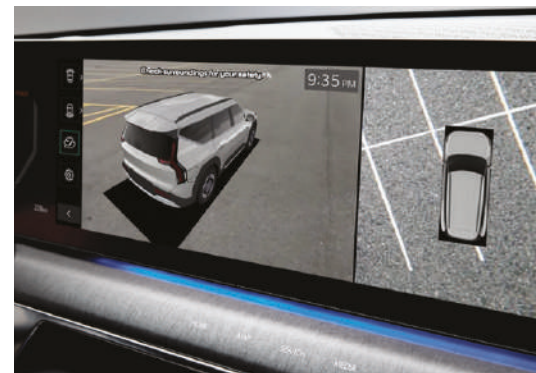

Blind-Spot View Monitor (BVM)

With innovative technology, now views that are difficult to see when driving the Kia EV9 can be easily seen through the blind spot view monitor feature.

Smart Cruise Control (SCC)

Set a speed on your own, and maintain your safest move with Smart Cruise Control. Smart Cruise Control determines the distance to the preceding vehicle and helps you drive at a constant speed without using the accelerator.

Surround View Monitor (SVM)

Parking the Kia EV9 in tight areas is now even easier with the Surround View Monitor feature which can provide views from all sides of the vehicle.

Forward Collision Avoidance Assist

FCA uses a front-view camera and radar to detect a vehicle, pedestrian or cyclist ahead. By warning and braking automatically, it can help you avoid, or reduce the severity of, an accident. The system also engages if you are crossing or turning left at an intersection.

DESCRIPTION		Earth		GT Line	
POWER TRAIN					
Motor Type		Permanent Magnet Synchronous Motor (PMSM)			
Configuration		Rear Wheel Drive (Rear Motor)		All Wheel Drive (Front & Rear Motor)	
Maximum Power	(PS)	217		385	
Maximum Torque	(Nm)	350		700	
Battery Type		Liquid Cooled Lithium-Ion
